TEACHING ENGLISH AS A MINISTRY

Team Training Day | helping equip the church to reach the nations at our door step for Christ.

Teaching English as a ministry isn't something that is simply for teachers. Engaging with people from a variety of cultures is a part of every day life in Australia.

If you have ever wished you could improve your communication with someone whose first language is not English, this is the day for you.

You will learn the important role relationships, hospitality and testimony play in showing God's love to our neighbours from other cultures. For those who are specifically interested in teaching English, this is a fabulous opportunity to network with others in the same ministry. There will also be elective workshops in the afternoon to help hone your skills and give you ideas for future lessons.

This TEAM training day will be facilitated by Intercultural Training Australia
